RE: Traffic Alert - Melrose Avenue / IWV Road

Weather permitting, beginning on Monday, July 12, 2021, construction is expected to start on the Melrose Avenue / IWV Road Improvement Project. This work will necessitate various lane reductions on Melrose Avenue / IWV Road from Highway 218 to Hebl Avenue.

It is expected that construction will continue through the Fall of 2022.

Motorists are to take note of this work and allow for extra travel time as delays will occur. As always, caution should be exercised when traveling through all construction areas.
